Celebrate St. Patrick's Day in science with this genetics worksheet featuring leprechauns. In this worksheet, your students will use monohybrid Punnett squares to find the percent chance of different genotypes and phenotypes. Students will need a working knowledge of words like heterozygous, homozygous, hybrid, and purebred. The questions on the worksheet are arranged from easiest to most challenging. This free resource is a sample worksheet made from the St. Patrick's Day Leprechaun Genotype and Phenotype Punnett Square Worksheets resource in my store. In that set there are three differentiated levels of two page worksheets. This sample worksheet was made by taking one problem from each differentiated level and scaffolding them into a one page worksheet. If you like this worksheet, please consider purchasing the differentiated worksheet pack to really challenge your students on St. Patrick's Day. You might also be interested in using these genetic resources in your unit. Genetics and Heredity Stations Activity Genetics and Heredity Test Genetics and Heredity Vocabulary Package Genetics and Heredity Odd One Out Worksheet Take a look at the many other Genetics Resources in my store. Check out my Blog and Facebook Page. ***Look for the green star near the top of any page in my store and click it to become a follower.
